DESCRIPTION

Work shoe with a sporty design, fits perfectly on the foot thanks to the upper made of seamless „3D KNIT“ technology. The knitted upper consists of two layers of textile in a contrasting color design. Reinforcement by offset printing in the area of the toe and around the laces. The breathability of the shoes is ensured by the laminated MESH fabric in the area of the lining and the tongue. The ANATOMIC GEL insole with a cushioning gel element in the heel takes care of the increased comfort of the shoes. The stable polyurethane sole made by direct spray provides the highest level of anti-slip properties.
